One Stop Solution for all your Hospital Needs ... at your Doorstep

RESPIRATORY CARE :

Oxygen Cylinder / Oxygen Concentrator / Air Purifier / POC

Air Purifier

- Air Purifier (ac4025/10) to remove contaminants from air
- For patients who suffer from allergies & long term respiratory patients
- Sleep model / advanced filtration with easy to set timer.

Oxygen Cylinders (5 litres / 10 Litres)

- For respiratory therapy

Philips Everflo Oxygen Concentrator

- Philips Everflo Oxygen Contrator 5 LPM
- Cost effective & reliable device for oxygen therapy
- Light weight, compact & high durable, low power consumption with oxygen purity indicator
- For long term respiratory therapy

Invacare Platinum 9 LPM Oxygen Concentrator

- Device for long term oxygen therapy with high requirement (more than 5 LPM)
- Twin head compressor ensuring better durability, easy access to flow indicator
- Automatic circuit breaker

Philips Simply Go Portable Oxygen Concentrator

- Philips Simply Go Portable Oxygen Concentrator (POC)
- Device to offer continuous flow and pulse - dose delivery
- FAA approval for air travel, intuitive control panel with several operating alarms
- Light weight, compact and easily exchangeable battery
- For chronic hypoxia, COPD, heart failure & pulmonary arterial disease

Philips Simply Go Mini Portable Oxygen Contractor

- Philips Simply Go Mini Purchase Oxygen Contractor (POC)
- Offer continuous flow and pulse OSE delivery
- Extended battery backup upto 9 hrs.
- Light weight, compact with intuitive control panel

One Stop Solution for all your Hospital Needs ...

RESPIRATORY CARE :

Nebulizers / Suction Apparatus / BiPAP / Non-Invasive Ventilators

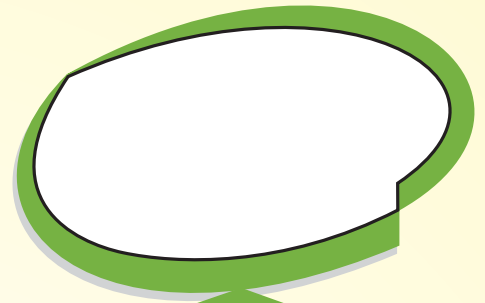

Innospire Essence Nebulizers

- Provides fast and efficient aerosol drug delivery
- For long term chest congestion & COPD patients
- Compact, economical with side stream technologies
- Active venturi system for fast drug delivery in short treatment time

Double Jar Suction Apparatus

- Device to remove liquid or secretions
- For suspected aspiration of gastric or upper airway secretions
- Convenient oil free pump with plastic panel design. No positive pressure during use with low noise

Single Jar Suction Apparatus

- Device to remove liquid secretions
- For suspected aspiration of gastric or upper airway secretions
- Single jar convenient battery operated oil free pump with plastic panel design
- No positive pressure during use with low noise

Resmed Lumis 100 VPAP S

- NIV for spontaneous breathing non-dependent patient with respiratory insufficiency
- Indicated for adult / paediatric respiratory disorder patients
- Intelligent air technology to control with vsync
- Quicknav, auto climatic control with rescans software

Resmed Lumis 150 VPAP ST

- NIV for non-dependant patients with obstructive or restrictive respiratory conditions
- Maintain target alveolar ventilation to suit each patient's changing needs
- IVAPS technology for intelligent back up

RESPIRATORY CARE :

BiPAP / Non-Invasive Ventilators

Philips BiPAP Pro

- NIV for spontaneous breathing non-dependant patient with respiratory insufficiency
- Indicated for adult / paediatric respiratory disorder patients
- Bi flex comfort technology wide pressure range with patient adjustable ramp.

Philips BiPAP St

- NIV for obstructive or restrictive conditions
- Indicated for adult / paediatric respiratory disorder patients
- Bi-level S & S/T modes to deliver prescribed therapy
- Advanced leak sensing technology with bi flex for comfort

Philips BiPAP AVAPS

- For adult / paediatric respiratory disorder patients
- VAPS technology with various modes S, S/T, PC and pressure modes
- Advanced leak sensing technology with bi-flex for comfort

Philips BiPAP Auto

- For complex sleep disordered breathing problems
- Servo ventilation algorithm with auto EPAP for patients changing need
- Advanced leak sensing technology with bi flex for comfort

Philips A40 Non-invasive Ventilator

- Promote longterm compliance with AVAPS-AE
- Enhance patient comfort
- View oxymetry & ventilation data on one screen

Resumed Stellar 100 Non-invasive Ventilator

- Premium NIV (with invasive capabilities) for patients with changing ventilatory needs
- Broad range of modes S, S/T pac. CPAP with user friendly manual integrated oxygen delivery system
- Compatible for adult & paediatric patients
- Other models stellar 100 with Fio2 / with Spo2 / Fio2 and Spo2

RESPIRATORY CARE :

BiPAP / Non-Invasive Ventilators / Mask & Accessories

Resmed Stellar 150 Non-Invasive Ventilator

- NIV (with invasive capabilities) for patients with changing ventilatory needs
- Broad range of modes iVAPS / S, S/T, PAC, CPAP with user friendly manual integrated oxygen delivery system
- Compatible for adult & paediatric patients
- Other models stellar 150 with Fio2/with Spo2/Fio2 and Spo2

Resmed Astral 100 Ventilator

- Portable life supported ventilator
- For adult and paediatric patients in home and healthcare environments
- Broad range of models, convenience in motion, discreet the performance with ease of use.

Resmed Astral 150 Ventilator

- Portable life support ventilator
- For adult & paediatric patient at with in home & health care environment
- Integrated Fio2, double limb circuit option
- Various mode discreet performances, easy to use

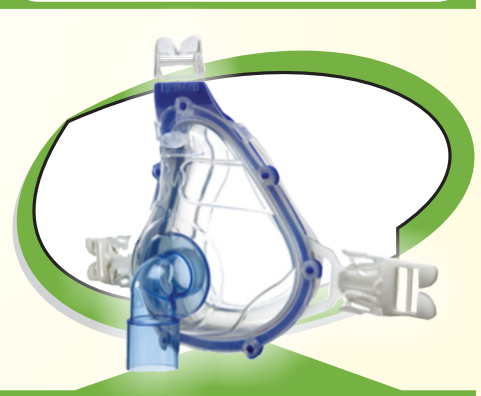

Resmed Acucaure Mask (Non-Vented) (Small/Medium/Large)

- Resmed accurate mask for NIV
- High quality disposable patient interface for hospital
- Fast to select and fit, dependable seal with environment headgear
- 3 Variety of accurate fl-0, fl-1, f-4

Resmed Hospital Nasal (Medium/Large)

- Resmed hospital nasal mask
- Designed for single patient use, cost effective for hospital environment
- Easy to use, flexible, efficient and comfortable.

Resmed Mirage Quattro Full Face Mask

- Resmed quattro full face mask for CPAP therapy
- Spring air cushion, flexible easy to adjust and use with signing options.
- Streamline design and quiet performance.

RESPIRATORY CARE :

Mask & Accessories

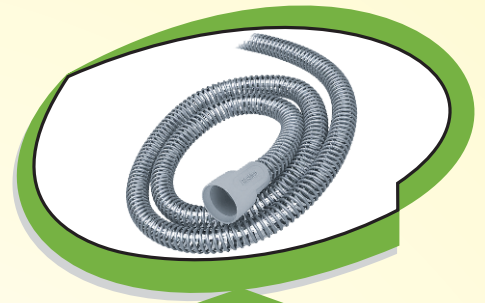

F&P Hospital Nasal / Full Face Maks

- Fisher & paykel masks designed for non invasive ventilation
- Different models RTO40/RTO41/RTP42 with different sizes
- Unique head gear system, built in ports, flexi fit seal with head space design

Philips Amara Full Face mask

- For sleep apnea and NIV uses
- Silicon made light mask, simple design for right fit
- Amara gel for good seal and comfort
- One click cushion reduce pressure points

Resmed Slime Line Tubing

- Resmed slime Line Tubing is lighter and thinner than traditional tubing
- Hand smart fit a streamlined design, travel friendly

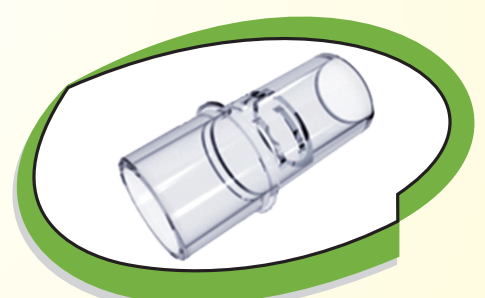

Resmed Humidifier (4i/5i)

- For convenient poap therapy to patient

Resmed Climate Control Tubing

- Resmed climate control tubing with temperature sensor
- Built in oxygen connector with key technologies for constant comfort.

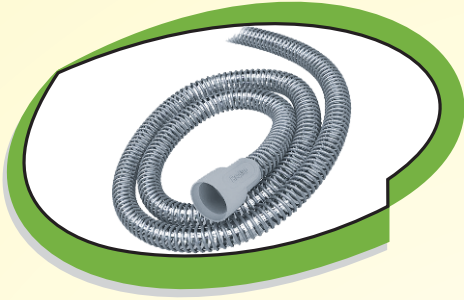

Resmed Leak Port / Leak Valve / Oxygen Port Connector

- View access alarm and controls
- Replacement part for flow generator
- It goes between tube and mask to bleed

RESPIRATORY CARE :

Mask & Accessories

Resmed Stellar Allergenic Filter

- Resmed Stellar Allergenic Filter
- To improve efficiency of IV/NIV ventilator

Resmed S9 Power Adapter

- Use to connect all S9 devices with (humidifier) to main electricity supply

F & P Hc200 Hose Pipe

- Connecting pipe CPAP machine to mask for therapy

Resmed FFM Elbow & Valve

- For ultra mirage full face CPAP mask
- Replacement parts include elbow, swivel & valve membrane

HME Filter

- Prevents inspissation of airway secretions, hypothermia during mechanical ventilation
- Made of hydrophobic fibers

F & P Hose Pipe

- High strength, light weight, suitable for ventilation

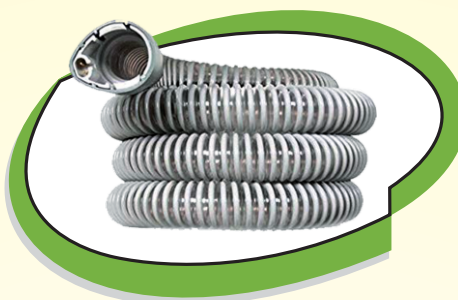

RESPIRATORY CARE :

Mask & Accessories

Resmed S9 Power Adapter

- Use to connect all S9 devices with (humidifier) to main electricity supply

F & P Hc200 Hose Pipe

- Connecting Pipe to CPAP machine to mask for therapy

Resmed S9 Auto Set Filter

- Resumed CPAP filter for long term air purification

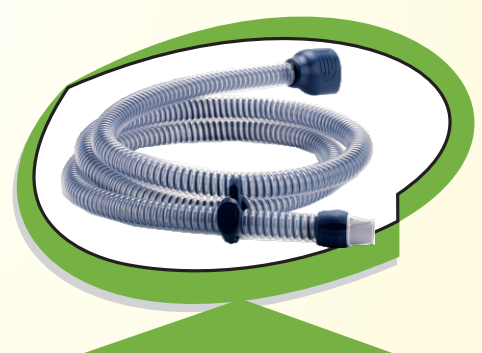

F & P Standard Humidification Chamber

- Automatically refills
- Dual float mechanism

HME Filter

- Prevents inspissation of airway secretions, hypothermia during mechanical ventilation
- Made of hydrophobic fibers

F & P Hose Pipe

- High strength, light weight, suitable for ventilation

SLEEP THERAPY :

Resmed Apnea Link Air / CPAP

Resmed Apnea Link Air Home Sleep Test Device

- Type III home sleep test device
- Screening & diagnosis of OSA (Obstructive Sleep Apnea) patients
- Small, compact, easy to use, Reliable device for sleep study at home

Resmed S9 Elite Manual

- For OSA (Obstructive Sleep Apnea) patient weighing more than 30 kg and intended for home and hospital use
- User friendly controls and intuitive interface guide
- Integrates with H5i heated humidifier with climate control

Resmed S9 Autoset

- Indicated for treatment of OSA (Obstructive Sleep Apnea) patients
- Smart start feature, intelligent & user friendly controls

Resmed S9 Escape Auto

- Indicated for treatment of OSA (Obstructive Sleep Apnea) patients
- S9 escape auto with intelligent algorithm with easy breath expiratory pressure relief (EPR) as needed
- Smart start feature, intelligent feedback ask fit feature & user friendly controls

Resmed Airsense 10 Autoset

- Indicated for treatment of OSA (Obstructive Sleep Apnea) patients
- Premium auto adjusted pressure therapy device with built in ambient light sensor
- Easy breath motor with smart start function
- Consistent humidification for increased comfort

Resmed Airsense 10 Autoset with Humidifier

- Indicated for treatment of OSA (Obstructive Sleep Apnea) patients
- Premium auto adjusted pressure therapy device with built in ambient light sensor
- Easy breath motor with smart start function
- Consistent humidification for increased comfort

SLEEP THERAPY :

CPAP / Mask & Accessories

Philips Remstar CPAP

- Indicated for treatment of OSA (Obstructive Sleep Apnea) patients
- Flex pressure relief
- Humidification with heated tube option
- Oxymetry module capable with downloadable compliance data cable

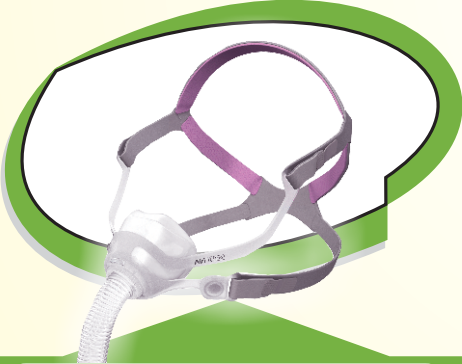

Philips Dream Station Auto CPAP

- Philips Dream Station Auto CPAP for OSA (Obstructive Sleep Apnea) patients
- Patient driven design with easy acclimation
- Simplified device evaluation with long term support

Resmed Mirage Micro Nasal Mask

- Resmed Mirage Micro Mask for CPAP patient
- Personalized fit, seal and comfort for sleep apnea therapy
- Intuitive design with visual freedom

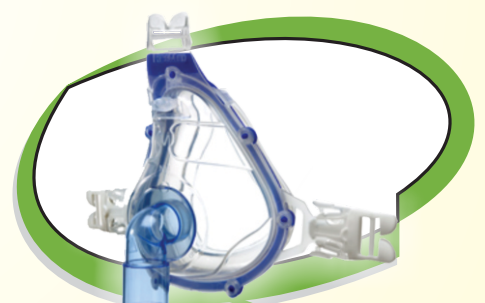

Resmed N10 Nasal Mask

- Resmed N10 Nasal Mask for patients suffering from Sleep Apnea
- Soft edge headgear design, spring air
- Cushion with innovative flexi tube, Airfit N10 specially for women

Resmed Airfit P10 Mask

- Resmed Airfit P10 Mask for patients suffering from sleep apnea
- Quietest and lightest mask with ultra technology
- Unique split strap, easy to use assemble and comfortable.

Resmed Quattro Air Full Face Mask (FFM)

- Resmed Quattro Air Full Face Mask for CPAP therapy
- Comfortable with spring air cushion technology
- Simple, quiet, lighter with flex wing forehead support

GERIATRIC AND MOBILITY CARE

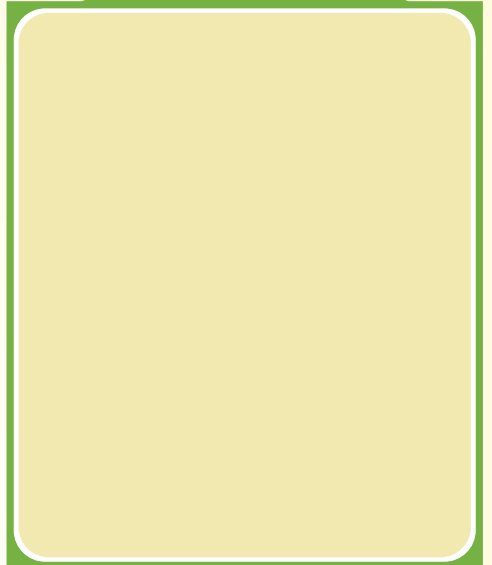

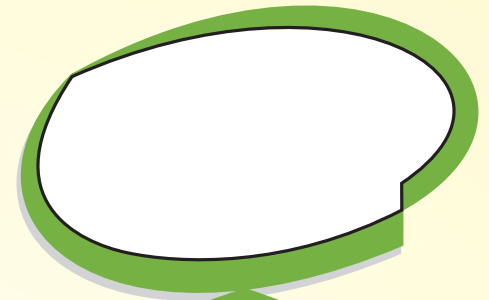

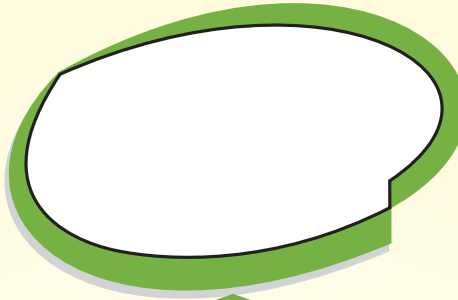

Cots / Beds / Mattresses

Semi Fowler Cot

- Used for bed ridden, rehab, post operative patients
- Mechanically operated backrest and angulations of 30-45° can be made from head position-1 function

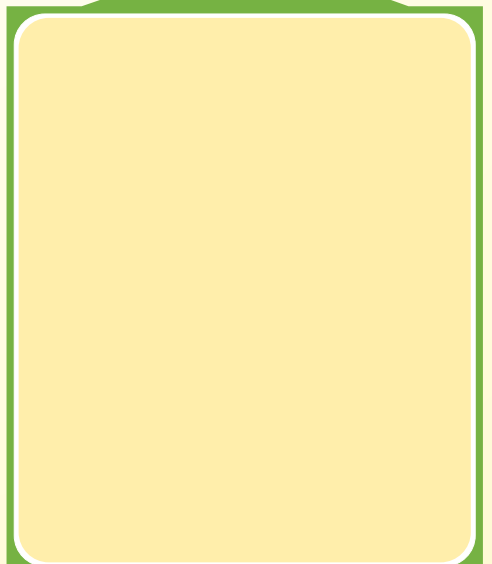

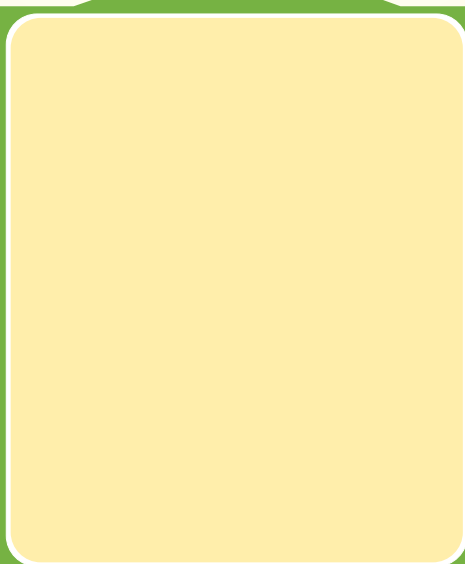

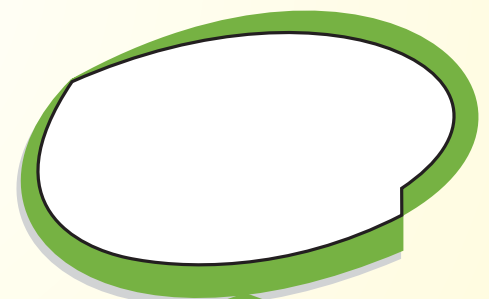

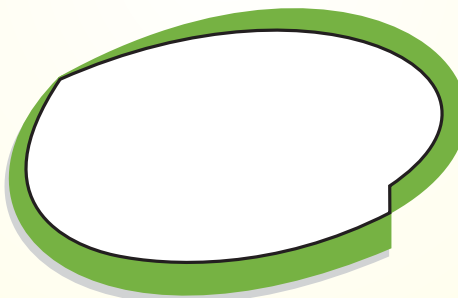

BRAND : Arrex / Surgix / Hi-Tech

ICU 5 Function - Manual

- For long term bedridden, post operative care, hospital bed
- Mechanical adjustable height, controlled back rest 0-70°, knee rest 0-35°, collapsible side railing
- Cushion with innovative flexi tube, Airfit N10 specially for women

BRAND : Arrex / Surgix / Hi-Tech

GERIATRIC AND MOBILITY CARE

Wheelchairs / Mobility and General Care Aids

Recliner Wheelchair with / without Commode

- For ambulatory and mobility and
- Foldable, light weight with fixed arm and foot rest, seat width 18", can bear 120 kg weight, spoke wheels

BRAND :

Arrex / Surgox / Medemove / Karma

Motorized Wheelchair

- Used for bed ridden, rehab. post-operative
- Mechanically operated backrest and angulations of 30-45" can be made from head position-1 function.

BRAND :

Arrex / Karma / Ezlife / Mademove

Walker without wheels

- Walking difficulties, injury & disability geriatric care, bedridden patients
- Lightweight, aluminium, large levers, folding easy without wheel

BRAND : Arrex / Scure / Olex / Karma

Walker with Wheels

- Walking difficulties, injury & disability, geriatric care, bedridden patients
- Lightweight, aluminium, large levers, folding easy with one hand with wheels

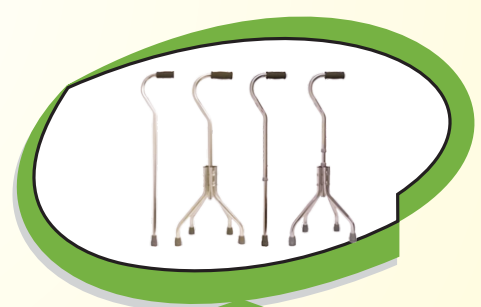

BRAND : Arrex / Scure / Olex / Karma

Chair with Commode

- Used for bed ridden, rehab. post-operative
- Backrest and removable seat, bucket with lid

BRAND : Arrex / Icare / Multiple / Karma

Walking Stick

- Used for long term bed ridden, rehab. post-operative
- High stability, high load bearing and durability

BRAND :

Arrex / Surgix / Icare / Multiple / Karma

One Stop Solution for all your Hospital Needs ...

GERIATRIC AND MOBILITY CARE

Mobility and General Care Aids

Crutches

- Disabled, Walking difficulty, bed ridden, post operative care
- Vinyl coated, ergonomically contoured arm cuffs modulated for comfort and stability

BRAND :
Vissco / Arrex / Icare / Multiple

Weighing Scale

- For hospitals, clinics, personal use
- Digital weighing scale
- Maximum weight capacity 250 Kg

BRAND :
Arrex / Arrex / Surgix / Multiple

Glucometer One Touch

- For home diabetics measurements
- 2 way scrolling buttons
- 500 test memory
- Corners in 3 different colours : Pink, Blue and Silver

BRAND : One touch glucometer

Glucometer Accucheck

- For home diabetic measurement
- Insulin management tool with reminders
- 1 click lancing device
- 500 test memory

BRAND : Accucheck glucometer

Adult Diaper

- Odor guard, quick wick with maxsoft, breathable zones, unisex
- Available in different sizes : X / M / L / XL / XXL

BRAND : Multiple

Hearing Aids

- Used for old, hearing disorder, patients, rehab. post operative
- Hearing test conduction and counselling
- Local partners with audiologists

BRAND : Phonak / Starkey / Oticon / Audibel / Multiple

GERIATRIC AND MOBILITY CARE

Mobility and General Care Aids

Stethoscope

- Indicated for examination and heart sounds monitoring

BRAND : Microtome / Littmann

Commode Raiser

- Used for bathroom and
- 4 inches / 6 inches

CARDIAC CARE

Cardiac and Intensive Care

Multipara 2 Para Table Top Pulse Oximeter

- Used for cardiac monitoring ICU set up at home
- Used to measure NIBP and pulse rate
- Light weight, compact and user friendly

BRAND : Contec / Scure / Multiple

Fingertip Pulse Oximeter

- Non invasive device to measure oxygen level & pulse rate
- Oxygen saturation evaluation for respiratory & cardiac patients
- Small stylish and durable with precision accuracy

BRAND :
Contec / Scure / Choicedmed

Para Multipara Monitor

- Used for cardiac monitoring ICU sent up at home
- It measure : SPO2, BP, RR, PR/ECG
- Lights weight, compact and user friendly

BRAND : Scure / Contec

Multipara 5 Monitor - FDA approved with/without ETCO2 Module

- Used for cardiac monitoring ICU set up at home
- It measures, SPO2, BP, PR/ECG respiratory rate and temperature
- Low power consumption user friendly

BRAND : Philips / Contec

Holter Monitor

- Used for 24 hrs/48hrs ECG monitoring rehab, post operative care
- 12 lead / 3 channel two work modes
- Removable SD card
- LCD display

BRAND : BPL / Philips / Multiple

Ambulatory BP Monitor

- Indicated for constinuous 24 hrs BP monitoring rehab, post operative care
- 24 hours ambulatory NIBP monitoring function, upto 350 groups of ambulatory NIBP data can be recorded at once

BRAND : Microlite / Contec / Multiple

CARDIAC CARE

Cardiac and Intensive Care

Syringe Pump

- Indicated for infusing nutrients, medications and drugs
- Designed for gradual and small dosages of drugs to patients
- Lds 1 syringe (micro liter sizes upto 60 ml)

BRAND : Scure / BPL / Byond

Infusion Pump

- Indicated for infusing nutrients, medications
- Flow rate, volume limit, bolus features and alarm system
- Tube heating function, dual CPU monitoring function

BRAND : Scure / BPL / Byond

ECG Machine

- For long term bed ridden, post operative care hospital bed rehab.
- Three channel ECG recording
- Ergonomic design
- Built-in rechargeable battery
- Large LCD display with patient data entry feature

BRAND : Arrex / Surgix / Ge / Contec

Defibrillator

- Indicated for cardiac care and monitoring
- Selectable energy protocols in AED
- Current controlled bi-phase waveforms

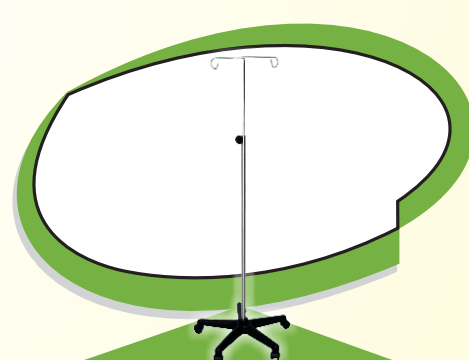

BRAND : BPL / Philips

Digital BP Machine

- Enables easy and regular monitoring of your blood pressure accurately with big digital LCD screen

BRAND : Omron / Niscomed / Ezlife / Scure

IV Stand

- For ambulatory and mobility aid
- Geugt adhyastabke 1150 mm to 2025 mm approximately
- Pre-treated and epoxy powder coated
- SS road with double hook

BRAND :

CARDIAC CARE

Cardiac and Intensive Care

CPM Machine

- Used for continuous passive motion post TRP surgeries and trauma or accidents
- For 5° angle to 120° flexion mobilization
- With remote control, treatment timer and low power consumption

BRAND : HMS / Ultrahealth

DVT Pump

- Indicated against / for deep vein thrombosis
- Rapid inflation and graduated sequential compression along with asymmetric compression
- Pressure range - 50 to 60 mm Hg
- With disposable and reusable cuffs

BRAND : Aircraft / Phlebopress

Lymphedema Pump

- Used for lymph drainage in bed ridden, rehab., post operative and cancer patients
- Pressure range - 20 to 90 mm Hg
- Pneumatic sequential compression device
- With reusable cuffs

BRAND : Lymphapress

Disposable Cuffs

- Used with DVT pumps
- Both reusable and disposable
- Disposable lasts upto 15 days
- Reusable lasts up to 2 years

BRAND : Aircraft / Phlebopress

Portable Ultrasound

- Portable ultrasound indicated for physiotherapy in muscle rehabilitation & pain
- 1 & 3 MHZ through a unique ultrasound applicator

BRAND : Johari Digital

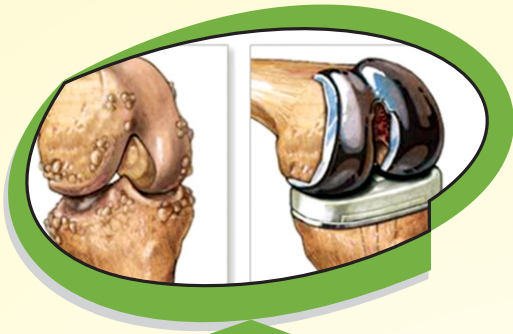

STIM 3

- Complete physiotherapy solution for pain management
- STIMS is a 2/4 channel IFT TENS Ems Russian stimulator
- 2 different patients can be treated simultaneously

BRAND : Johari Digital

PACKAGES FOR ALL YOUR HEALTH CARE NEEDS

Total Knee Replacement :

Post knee replacement surgeries there is a crucial need for 'Integrated Quality Care' during the rehabilitation period which lasts a minimum of 4 to 6 months.
